This tariff applies only in connection with tariffs making reference to this tariff as a governing tariff. ITEM 170 – APPLICATION OF CLASSES AND/OR RATES-INADVERTENCE CLAUSES

1. When rates in tariffs published by DAYR or NMFC ratings are subject to a released valuation being stated on the bill of lading and the shipper fails or declines to indicate an acceptable valuation on the bill of lading at the time of shipment, the shipment will be considered as being released to the lowest valuation provided and the shipment will be transported and charged for subject to such limitation of such liability. This part applies only when released valuation is required in order to determine a rate and does not apply when the shipper has the option to release or not to release a shipment as to value.

2. When rates in tariffs published by DAYR or NMFC ratings are subject to, or are determined by, the density of the articles shipped and the shipper fails to indicate the density on the bill of lading at the time of shipment, the shipment will be charged for on the basis of the class or rate applicable on the lowest density provided. Upon receipt of satisfactory proof of a higher actual density, the freight charges will be adjusted to those applicable to such actual density.

ITEM 190 – APPLICATION OF RATES-GROUND SHIPMENTS CHARGES

Rates contained in Can-AM 505 apply on shipments delivered by ground service only.

ITEM 300 – ADVANCING CHARGES

(See NOTES C and D)

NOTE A: However transmitted, the notice will specify the point of origin, consignor, commodity description and shipment weight.

NOTE B: When transmitted by mail, the notice will be deemed to have been received at 8:00 a.m. the first business day after it was mailed.

ITEM 362 – BILLS OF LADING - ORDER NOTIFY SHIPMENTS

1. Shipments moving under Order Notify Bills of Lading will be tendered for delivery promptly upon arrival at destination or terminal point. Tender of delivery will be considered as delivery for the purpose of applying this rule. If a shipment moving under an Order Notify Bill of Lading is tendered for delivery to consignee at billed destination and the consignee or party entitled to receive the shipment is unable to present the necessary Bill of Lading, the shipment will be treated as refused or unclaimed freight and will be handled in accordance with the rule and charges provided for in ITEM 830 (Redelivery).
2. Order Notify shipments will be subject to a charge of **\$64.03** per shipment, which charge will be in addition to all other lawful transportation charges.
3. The charges for handling Order Notify shipments will be collected from the party paying all other lawful transportation charges.

ITEM 365 – BILLS OF LADING – CORRECTED

1. Corrected bills of lading or other instructions to change the freight charges collection status from prepaid to collect will not be accepted after the shipment has been delivered.
2. A corrected bill of lading to change the original freight charges collection status from prepaid to collect will not be accepted if Section 7 (The non-recourse clause) of the corrected bill of lading has been signed by the consignor.
3. A request to change the original freight charges collection status from collect to prepaid will require a corrected bill of lading from the shipper and the shipper must have established credit with DAYR. An additional charge of **\$47.46** per freight bill changed will be assessed against the party responsible for payment of the freight charges on the corrected bill of lading.
4. Redelivery, storage or other charges that become applicable on shipments that have been refused due to the freight charges collection status will be assessed against the party responsible for payment of the freight charges on the corrected bill of lading.

ITEM 370 – BLIND SHIPMENTS

(Note A)

Upon written instructions received by the carrier prior to receipt of shipment at point of origin, accompanied by a thorough Bill of Lading covering the shipment, the carrier will accept the shipment when tendered by the party in possession of the shipment, subject to the following conditions:

1. Prior to notification to carrier for pickup of blind shipment, customer must contact carriers rate department to obtain a Quote Number. This quote will include total freight charges based on information given by customer, including the applicable charge of **\$64.99** for the blind shipment.
2. After receipt of the Quote Number, the customer will then give all blind shipment information to the carrier's dispatcher, who in turn will complete the Blind Shipment Form. Both the Blind Shipment Form and the original Bill of Lading received at the pickup point will be submitted to the billing clerk with the same pro number. The Quote Number must be written on the Blind Shipment Form.
3. Blind shipments must move prepaid, unless the party paying for the blind shipment charge is also paying the freight charges collect.
4. Carrier will have no responsibility or liability for incorrect billing or delivery of the blind shipment if customer fails to obtain a Quote Number prior to the freight being received by the carrier.

NOTE A: Definition of Blind Shipment: When a 3rd party paying the freight charges requests the carrier to ship the freight to a different consignee indicated on the Bill of Lading AND/OR requests that the carrier change shipper's name on the Bill of Lading, at the time of pickup. A charge of **\$64.99** applies for this service. A blind shipment can require changing just the shipper name or consignee information or both. All shipments must show originating city and state of pickup point. This cannot be changed under any circumstances.

ITEM 381 – CANCELLATION OF ITEMS

As this tariff is supplemented, numbered items with letter suffixes cancel, except as otherwise specifically indicated, correspondingly numbered items in the original tariff or in a prior supplement. Letter suffixes will be used in alphabetical sequence starting with A.

Example: Item 445-A cancels Item 445, and Item 365-B cancels Item 365-A, in a prior supplement, which in turn cancelled Item 365. (If Item 365 had not been cancelled, for some reason, Item 365-B would cancel it as well). If the new item provides a specific cancellation of a prior issue or issues, this rule is not applicable.

ITEM 390 – CAPACITY LOAD - MINIMUM CHARGE

1. When all or part of a LTL rated shipment tendered to the carrier is classified as being a CAPACITY LOAD shipment, the minimum charge for the quantity of freight loaded per pup(s) will be as follows:

 - (b) Rates and Minimum Charges will be:
 1. Each pup loaded will be rated at **\$5.25** per mile, subject to a **\$1371.98** Minimum Charge.
 2. Each two pups loaded will be rated at **\$8.31** per mile, subject to a **\$2052.41** Minimum Charge
 3. Excess freight not fully loading the last pup will be considered a separate shipment and so rated.
2. The terms LOADED TO CAPACITY or CAPACITY LOAD refer to the extent to which a pup(s) is loaded with freight, each term meaning:
 - (a) That quantity of freight which, because of unusual shape or dimensions or because of necessity for segregation from other freight, requires the entire capacity of a pup(s); or
 - (b) That quantity of freight which, in the manner loaded, utilizes a linear length of 20 feet or more in the pup(s) and either of the following conditions apply:
 1. Linear width of the freight is equal to or is greater than 5 feet in the pup(s), or
 2. Linear width of the freight is less than 5 feet and no article identical in size and shipping form to the largest article in the shipment can be loaded in the pup(s); or
 - (c) That quantity of freight that exceeds 20,000 pounds, or by weight or size limitations can be legally loaded in a pup(s); or
 - (d) That quantity of freight consisting of one article loaded in a pup(s) when one additional article, weighing the same as or more than the article loaded, cannot be legally loaded; or
 - (e) That quantity of freight picked up on equipment other than pup/set that would be defined as a CAPACITY LOAD as defined herein, if such freight was loaded in a pup/set.
3. The provisions of this item may not be used to reduce rates, minimum weights or total charges below the otherwise applicable charges on the shipment.
4. When during one calendar day, two or more shipments are received from one consignor, at one origin address, destined to one or more consignees at the same destination delivery address, that combine will aggregate the "full capacity" at one or more pups, the shipments will be combined and considered as one shipment and will be subject to the provisions of this item.

 - (II) to request that the vehicle with power be returned to carrier without being subject to charges for storage or redelivery so long as free time has not yet expired. When the vehicle is returned for completion of loading or unloading, the computation of any remaining free time will resume.

If free time has expired and detention has begun to accrue, storage or redelivery charges as may otherwise be provided will be assessed.

c) When more than one truckload shipment or a truckload shipment and one or more less-than-truckload (LTL) or any quantity (AQ) shipments are loaded) on one vehicle at the premises of consignor or when more than one truckload shipment or a truckload shipment and one or more LTL or AQ shipments are unloaded from one vehicle at the premises of consignee or other designated party, the combined weight will be used to determine free time, in all other instances the individual shipment weight will be used.

d) When a vehicle with power is changed to a vehicle without power at the request of consignor, consignee or other party designated by them, the free time and detention charges will be applied as follows:

1) If the change is requested and made before the expiration of free time for a vehicle with power, free time will cease immediately at the time the request is made, and detention charges for vehicles without power will immediately commence with no further free time allowed.

Tailgate loading shall also be defined as such when, through the use of the pier operator's platform or by removal of stakes or standards of flatbed equipment, the forklift operator is able to place the cargo either at a point of rest on the truck or in a position for further handling by personnel of the motor carrier.

All other loading and/or unloading that requires more equipment and/or personnel than one forklift truck and operator per package or pallet shall be considered full loading or unloading.

The choice of partial or full loading and/or unloading shall be left to the discretion of the motor carrier, shipper or consignee, provided the service requested comes within the provisions of this definition. (These provisions shall not be construed as compelling the terminal operator to provide pallets.)

NOTE F:

2. Time shall be computed from the time the extra labor departs from a carriers service center through its return to the service center, excluding any time servicing other customers.
3. Carrier's records must reflect the following information for each vehicle containing shipments on which extra labor is used:
 - (a) Name and address of consignor or consignee at whose place of business freight is loaded or unloaded.
 - (b) Identification of vehicle tendered for loading or unloading.
 - (c) Number of extra men used and applicable time used per Paragraph 2 above.
4. All charges herein will be assessed against the payor of the freight charges.
5. If charges for pickup or delivery on shipments picked-up or delivered on Saturdays, Sundays or Holidays are applicable, such charges will be assessed in lieu of the charges in this item. (See Item 754)
 Note A: In the event a delivery requires the carrier use and pay a Lumper (aka Swamper) Service the Fee charged by the Lumper Service shall be prorated against all delivered shipments on the trailer based on individual shipment subject to a minimum of **\$44.26** per shipment.

ITEM 562 – EXTREME LENGTH (aka OVER DIMENSION)

When a shipment contains any shipping unit or piece with a dimension exceeding 8 feet in length the additional charge will be as noted in the table below:

This item will not apply on shipments subject to EXCLUSIVE USE, CAPACITY LOAD or CUBIC CAPACITY AND DENSITY rules, or to TL or volume rates and charges.

Carrier Name	Range (inches)	Per Shipment
Day & Ross	96.1-143	\$ 92.72
	144-191	\$ 163.62
	192-239	\$ 272.69
	240-287	\$ 419.95
	288-99999	\$ 839.89

ITEM 565 – FRACTIONS, DISPOSITION OF

- (1) Fractions of less than 1/2 or .5, omit.
- (2) Fractions of 1/2 or .5 or greater, increase to next whole number.

ITEM 566 – INSIDE PICKUP OR DELIVERY

Applicable when the carrier is requested to perform a delivery (or pickup) at an area not located at the established receiving or shipping area, and not reasonably adjacent to the truck. The carrier shall assess a charge of **\$14.29/CWT** subject to a minimum charge of **\$141.88** per shipment and a maximum charge of **\$1418.60** per shipment. All charges will be assessed to the payor of the freight charges. This Item is further defined and clarified by the Notes listed below:

1. Standard delivery is defined as delivery to a receiving area for the consignee reasonably and practically adjacent to the truck. Delivery shall ensure the goods are placed to an area out of the elements preventing damage from weather or theft. Any request to deliver the shipment to another storage area beyond the standard or established receiving area (or beyond the area immediate to inside the front door when a store front type delivery) shall result in the application of this Inside Delivery charge.
2. Deliveries to Retail Malls shall constitute an Inside Delivery if the carrier is required to park at a common receiving dock and wheel the shipment by hand through the hallways of the Mall to the respective store. If a given store has a dedicated receiving dock, or the carrier can reasonably and practically park in front of the store (ie store front delivery), then the provisions of Note #1 above will guide.
3. If the delivery is to another floor (other than the ground floor level) the provisions of this Inside Delivery Item 566 will apply providing , provided that the carrier has access to an elevator that can accommodate the carriers standard freight handling tools (hand truck etc) and there is no charge to the carrier for use of the elevator. In the event that the delivery to another floor is not supported by an elevator or does not accommodate the carriers standard freight handling tools, the carrier may apply Extra Labor charges as found in Item 560 in lieu of the of the Inside Delivery charges found in this Item 566. Deliveries of this nature will be specifically reviewed and approved by the payor of the freight charges before the service is performed.
4. The carrier will have no liabilities or responsibilities for damages or injury to persons or property resulting from Inside Delivery services performed by the carrier. The Consignor or Consignee requesting the carrier perform the Inside Delivery service shall indemnify, protect, save and hold harmless the carrier from any claims, liabilities , losses , damages, cost and expenses , of any kind imposed upon, incurred by or asserted against the carrier, arising from, connected with or resulting from the Inside Delivery services performed.

ITEM 570 – IMPRACTICABLE OPERATIONS

Pick-up or delivery service will not be performed by the carrier at any site from or to which it is impracticable to operate vehicles because of:

1. The condition of roads, streets, driveways, alleys or approaches thereto;
2. Inadequate loading or unloading facilities;
3. Riots, acts of God, the public enemy, the authority of law, strike by consignor's or consignee's employees, the existence of violence, or such possible disturbances as tending to create reasonable apprehension of danger to person or property.
4. Ferries.

ITEM 576 – LITIGATION OF DELINQUENT BILLS

Failure to make payment of freight charges for services performed as a common carrier which subsequently results in legal action taken against the debtor, will be subject to the following:

1. Forfeiture of all discounts, allowances, commodity rates, brokerage agreements, incentives or any other rate reductions enjoyed by such debtor, if any, on all unpaid freight bills.
2. In addition to above, debtor will be responsible for attorney fees and/or court costs associated with or as a result of suit.

PAYMENT OF CHARGES

1. Allowances, discounts, exception classes and commodity rates shall apply only when tariff charges are paid within a maximum period of forty-two (42) calendar days from invoice date.
2. The provisions of this rule do not change in any way the carrier's obligation to collect nor the freight charge payor's obligation to pay tariff charges within the standard credit period maintained by the carrier in compliance with 49 CFR 1320. This rule simply establishes a condition precedent for the application of the special tariff provisions described in Paragraph 1.

ITEM 578 – LOADING BY CONSIGNOR-UNLOADING BY CONSIGNEE

1. In lieu of pickup or delivery service as provided in Item 750 and when convenient for customer and carrier, customer may load/unload carrier's trailers, under the following conditions:
 - A. SHIPPER LOAD** – When prearranged with carrier's local operations, carrier will spot or drop trailer at the shipper's loading facility so the shipper may load the trailers at its convenience. Any discrepancy on those shipments tendered under the Shipper Load and Count arrangement will be handled in the following manner:
 1. At pick-up, carrier will include "SL&C" on the bill of lading, indicating that the shipper counted and loaded the shipment without carrier's driver present. The shipper will properly block and brace the freight. Carrier's failure to note "SL&C" on the bill of lading will not affect the liabilities of the parties, if the shipper has in fact performed the counting and loading without a representative from carrier present.
 2. Carrier will provide seals for security purposes to the shipper when requested. Failure to seal a load will not affect the terms and conditions outlined in Item 578.
 3. Carrier will notify the shipper's representative by auto-fax of any exceptions within 24 hours of first unloading. This will not include weekends or holidays. Carrier cannot be liable for uncountable palletized orders, picked up and delivered with wrap intact.
 4. Shortage claims filed will be thoroughly investigated. Carrier will work with the shipper to use overage, as mutually agreeable, to offset their liability on valid claims.
 5. Shortages will be reported as above. The shipper will advise carrier disposition of any merchandise that could or should be applied to a valid shortage. In the event of a shipper caused shortage, the shipper will allow carrier to adjust the Bill of Lading accordingly to reflect actual piece count and weight.
 6. Carrier will accept liability for any loss or damage to product that has not been properly reported unless the loss or damage is one of the concealed nature. In this respect, any claim following will be settled based on the findings of the investigation.

7. Carrier can be responsible for handling units only as applicable and to the extent that a piece count can be verified. Individual item numbers and P.O. shortages at delivery shall not be deemed as shortages against Carrier when the handling unit count matches the amount properly reported as received on the SL&C trailer.
8. Carrier will not decline liability of claims just because the bill of lading is noted "SL&C". The burden is carrier's to either provide a clear proof of delivery, a properly reported exception or payment of the claim. The shipper agrees not to file claims when discrepancies have been properly reported.

B. CONSIGNEE UNLOAD – Carrier will drop or spot trailers at the consignee's facility so the receiver may unload the trailers. Any discrepancy on those shipments tendered, as CONSIGNEE UNLOAD will be handled in the following manner unless a separate agreement is already established and signed in place:

1. Carrier agrees to spot or drop trailers at Consignee's place of business for the purpose of Consignee to complete the unloading process within normal free time or otherwise agreed to in writing.
2. Consignee will not utilize carrier's equipment for any use other than the express purpose of unloading.
3. When the Consignee fails to report to carrier's local service center that equipment is empty and available to carrier for removal, it will be subject to detention rules and charges.
4. Consignee will accept liability for any and all damages occurring to carrier's equipment, or for the loss of carrier's equipment, while in its physical possession, other than normal wear and tear or an Act of God. Consignee will promptly reimburse carrier for the cost of repairing or replacing such equipment.
5. Carrier will note CONSIGNEE UNLOAD on the delivery receipt, indicating that the consignee unloaded and counted the shipments without carrier's driver present. Carrier's failure to note CONSIGNEE UNLOAD on the delivery receipts will not affect the liabilities of the parties, if the consignee has in fact performed the counting and unloading without a representative from carrier present.
6. Carrier will provide sealed trailers with the carrier's seal number documented for security purposes. Failure to seal a load will not affect the terms and conditions outlined in this item.
7. Delivery receipts will be signed by the consignee at the time the trailer is dropped for unloading, or if not operationally feasible, will be available to carrier no more than 24 hours after delivery.
 - a. The consignee agrees to notify carrier by fax on a mutually approved form of any exceptions within 24 hours of the trailer being dropped. This will not include weekends or holidays. Carrier shall not be liable for exceptions reported after 24 hours of trailer being dropped.
 - b. Notice of any exception is to be faxed on the mutually approved form to the attention of the local service center's OS&D associate.
8. Carrier shall not be liable for uncountable palletized orders, picked up and delivered with shrink wrap intact or for Shipper Load and Count orders that have been properly reported to the shipper at first unloading.
9. Carrier shall only be responsible for handling units as signed for and tendered by shipper. Individual item numbers and purchase order shortages shall not be deemed shortages against Carrier when the handling unit count matches the amount signed for at time of Pickup, or as applicable, properly reported as received on a Shipper Load and Count trailer.
10. Shipments tendered to the Consignee to be unloaded at their convenience are to be secured by the Consignee in a manner to prevent theft. Carrier will not be held responsible for stolen product while in the possession of the Consignee.
11. Carrier agrees not to decline liability of claims just because the delivery receipt is noted CONSIGNEE UNLOAD. The burden is carrier's to provide a clear proof of delivery when the documents are returned to the carrier. It is the consignee's

responsibility to provide a properly reported discrepancy with dated fax confirmation for payment of the claim. The consignee agrees not to file claims when discrepancies have not been properly reported.

12. The Consignee will accept liability for any loss or damage to product that has not been properly reported unless the loss or damage is one of the concealed nature reported within 15 days of the trailer being spotted for unloading. In this respect, any claim following will be settled based on the findings of the investigation.

ITEM 580 – MARKING OR TAGGING FREIGHT

(Exception to NMFC Item 580)

1. Except as otherwise provided for in this item, when shipments are released to a carrier with instructions to prepare a Bill of Lading, or where Bill of Lading is prepared by the owner of the goods and supplied to the carrier, the carrier will tag the freight to conform with NMFC Item 580, subject to charges shown in Paragraph 6.

IMPORT FREIGHT MOVING INBOND (See NOTE A)

2. Import shipments of LTL or AQ freight, when forwarded Inbond, which upon delivery to the carrier at the Port of Entry, bear blind or abbreviated markings, shall be marked with red label or tag of the U.S. Government to show the following information, which will be considered in full compliance with NMFC Item 580.

NOTICE - This package is under bond, and must be delivered intact to the Chief Officer of the United States Customs at _____

3. Shipments marked in accordance with Paragraph 2 will be subject to a charge of **\$5.81** per label or tag, minimum charge per shipment **\$58.54** when prepared and/or applied by the carrier.

4. Any additional marking required by the shipper, if performed by the carrier, will be charged for the same rate as provided in Paragraph 6.

FREIGHT NOT MOVING INBOND

5. On Import, Coastwise or Intercoastal traffic and on shipments received at steamship piers, which upon delivery to carrier or its agent at the Ports of Entry, bear blind or abbreviated markings, will, if necessary for proper identification, after completion of Customs formalities, be marked in conformity with NMFC Item 580. When marking is done by an employee of the carrier or other party acting as agent for the carrier, the charge for such marking will be provided in Paragraph 6, which charge unless paid to the carrier or its agent, as above, at the Port of Entry, will follow as an advance charge against the shipment.

CHARGES

(Applies only to the extent authorized in Paragraphs 1, 4 or 5 above)

6. a) Where the owner of the goods supplies the carrier with prepared labels or tags to be affixed to individual packages or pieces of freight, a **\$5.75** per label or tag, minimum charge per shipment of **\$58.52** will be assessed for affixing to packages or pieces.

b) Where the carrier is not supplied with prepared labels or tags to be affixed to individual packages or pieces of freight, carriers will mark, label or tag the freight, and assess a charge of **\$5.82** per package or piece so marked, labeled or tagged, minimum charge per shipment of **\$58.56**.

NOTE A: The marking or labeling charge will not be applicable when the vehicles are loaded to visible capacity and sealed with a red in-bound customs seal.

ITEM 595 – MAXIMUM CHARGE-ALTERNATION OF LTL OR AQ RATES

When the charges computed on the higher rate at actual weight exceeds the charge computed on the lower rate at a greater minimum weight, the latter charge will apply.

ITEM 596 – MAXIMUM WEIGHTS-TL OR VOL

Except as specifically provided in individual items, TL or VOL provisions subject to a maximum weight restriction will apply only to the extent total weight of the shipment does not exceed maximum weight. That portion of shipment in excess of a stated maximum weight shall be rated as a separate shipment.

ITEM 598 – MAXIMUM LIABILITY--CIGARETTES AND/OR TOBACCO PRODUCTS

When on shipments of Cigarettes and/or Tobacco Products, the Maximum Liability will be **\$2.00** per pound on loss or damage, which will be computed only on the actual weight of the portion that is lost or damaged.

ITEM 610 – MINIMUM CHARGE--HOUSEHOLD GOODS OR PERSONAL EFFECTS

1. The minimum charge for a shipment will apply as follows:
 - A. The applicable rate for each article multiplied by the actual weight of the articles but not less than the minimum charge shown in Class Rates and Charges, from origin to destination. Charges will not be reduced below the applicable minimum charge after discount or absolute minimum charge, whichever produces the higher charge.
 - B. The minimum charge for an LTL shipment of Household Goods or Personal Effects as described in NMFC items 100200 and 100262 will be 500 pounds at the applicable rate.
 - C. For the minimum charge for CAPACITY LOAD see Item 390 herein.
 - D. For the minimum charge for CONTROL AND EXCLUSIVE USE see Item 470 herein.

ITEM 610-1 – MINIMUM CHARGE--CUBIC CAPACITY AND DENSITY

1. When all or part of a shipment tendered to the carrier is classified as being a CUBIC CAPACITY AND DENSITY shipment, the minimum charge for the quantity of freight loaded per trailer/doubles will be as follows:
 - (a) Carrier will multiply the total cubic feet of the shipment by 6 pounds to determine a 'calculated' weight, then multiply the calculated weight by Class 150 rates from the DAYR Can-Am 505 class rate tariff applicable at time of shipment to determine the gross charges and apply the customer's otherwise applicable discount percentage to determine the final charge. If a customer does not have a discount on file, a **25%** discount will be used to determine the final charge on shipments to R&L Carriers, Inc. Customer or account specific FAK class exceptions less than class 150, will not apply. No other discount, reduction or allowance will apply.
 - (b) Overflow freight will be charged as a separate shipment and so rated.
2. The term CLASSIFIED AS A CUBIC CAPACITY AND DENSITY SHIPMENT refers to any shipment which is greater than 750 cubic feet and has an average density of less than four pounds per cubic foot.
3. Average density is based on the total cubic feet of each packaged/handling unit of the shipment. If due to the nature of the packaged/handling units or per instructions from the shipper/consignee, carrier is unable to load freight on top of the packaged/handling units or cannot double stack like kinds of packaged/handling units, a minimum height measurement of 84 inches will be used when determining the cubic footage of the packaged/handling units. Unitized shipments exceeding 14 line feet, or shipments of non-unitized freight that are loaded in such a manner that determining the total cube of each packaged/handling unit is impractical, or shipments tendered in such a manner that they cannot be transferred, will have the cube calculated on the linear dimensions of the entire shipment.

4. When, during one calendar day, two or more shipments are received from one consignor, at one origin address, destined to one or more consignees at the same destination delivery address, that combined will be greater than 750 cubic feet and has an average density of less than four pounds per cubic foot, the shipment will be combined as one shipment on one bill of lading, and will be subject to this item.
5. This Item will not apply on shipments subject to EXCLUSIVE USE or CAPACITY LOAD rules, or to TL or Volume rates and charges.
6. The Cubic Capacity & Density rule will not apply when the actual class of freight less the applicable discount is greater than the result of this rule.

ITEM 640 – MIXED PACKAGES--LTL OR AQ

(Exception to Section 3 of NMFC Item 640)

The charge for a package or packages containing freight of more than one class shall be at the rate provided for each individual article in the package.

1. Bill of lading and shipping order must specify each of the separately classified or rated articles by class rating group and the total weight of each such separately classified or rated articles.
2. When the billed weight is higher than the actual weight, the resulting deficit weight will be charged for at the rate applicable to the lowest classed article contained in the mixed packages comprising the shipment.

ITEM 641 – MIXED SHIPMENTS-LTL OR AQ

On a mixed LTL shipment or AQ shipment consisting of 2 or more commodities subject to different rates, the charge for each commodity shall be the respective LTL or AQ rates applicable to the aggregate weight of the shipment on the actual weight of each commodity. Any deficit in weight will be charged at the rate applicable to the lowest rated of such commodities.

ITEM 645 – MIXED SHIPMENTS--VOLUME OR TRUCKLOAD

(See NOTE A)

(Exception to NMFC Item 645)

SECTION 1: Unless otherwise provided, a number of articles, for which the same or different Vol or TL rates, classes, ratings or minimum weights are provided, constituting a mixed Vol or mixed TL shipment, will be charged at the actual or authorized estimated weight and at the straight Vol or TL class rate (NMFC or Exceptions), commodity rate or column commodity rate (not "Specific Mixture", "All Freight", "Freight, All Kinds" or "All Commodity" rates or ratings) applicable to each article except as provided in NMFC Item 310 and Item 640 herein, and at the highest straight Vol or TL minimum weight that would be applicable to any articles in the shipment if that quantity of each article in the mixed shipment is tendered as a straight Vol or straight TL shipment. Any deficit in the minimum weight will be charged for at the lowest Vol or TL rate applicable to any article in the mixed Vol or TL shipment.

SECTION 2: Subject to the provisions of Sec. 1, when the aggregate charge on the entire shipment is made lower by considering the articles as if they were divided into two or more separate Vol or TL shipments, the shipment will be charged for accordingly.

SECTION 3: Subject to the provisions of Sec. 1, when the aggregate charge on the entire shipment is less on the basis of the Vol or TL rate and Vol or TL minimum weight (or actual or authorized estimated weight if in excess of the Vol or TL minimum weight) for one or more of the articles, and on the basis of the LTL rate (See NOTE C) or rates on the actual or authorized estimated weight for the other article or articles, the shipment will be charged for accordingly. On articles included in Vol or TL shipments on which LTL rates are applied, Vol or TL package requirements will apply, and if so packed or prepared for shipment, will not be subject to increased charges provided in Section 3(a) of NMFC Item 687 (See NOTE D).

SECTION 4: Shipments subject to Vol or TL rates or ratings, applying on "Specific Mixtures", "All Freight", "Freight All Kinds", "All Commodity" or similarly designated rates or ratings will be charged for on the basis of the Vol or TL rate and its accompanying minimum weight or actual weight when greater. If an article or articles not provided for in the mixture is included in a shipment, such article or articles will be charged for as a separate LTL or Vol or TL shipment, whichever produces the lowest charge (See NOTE C). The weight of such articles not included in the mixture may not be used to make up the truckload minimum weight. On articles included in Vol or TL shipments on which LTL rates are applied, Vol or TL package requirements will apply, and if so packed or prepared for shipment, will not be subject to increase charges provided in Sec. 3(a) of NMFC Item 687.

SECTION 5: If a lower charge results under the application of Sections 1, 2 or 3, than under the provisions for a specific Vol or TL mixture, such lower charge will apply.

SECTION 6: Where different Vol or TL rates and minimum weight are provided on the same article included in a mixed Vol or mixed TL shipment, the lowest charges that can be computed by the use of any such rate and its accompanying minimum weight for that article shall be used in the determination of the charges for the entire shipment.

SECTION 7: On mixed Vol or TL shipments of commodities subject to "Excess" rates or ratings (See NOTE B) each commodity shall be considered separately and "Excess" rates or ratings (See NOTE B), will apply only when the basis minimum weight is met on each commodity. (Two or more commodities subject to the same rates or ratings and minimum weights are to be treated as one commodity in applying the excess class rate or rating).

NOTE A: The provisions of this rule will also apply on shipments accorded stop-off in transit privileges in accordance with the provisions of the tariff making reference hereto, or provisions authorized herein.

NOTE B: Excess rates or ratings are those rates or ratings specifically published to apply on the amount of the shipment loaded in the same vehicle which exceeds the stated VMW.

NOTE C: The LTL rate to apply will be rate applicable on the weight of the article or articles being charged for on the basis of the LTL rate or rates considering such portion as a separate shipment for rating purposes subject to a minimum charge if applicable.

NOTE D: The weight of the portion of the shipment assessed LTL rates shall not be used in computing the applicable Vol or TL minimum weight.

When consignor declares an actual or released value exceeding 50 cents per pound for used or reconditioned articles on the original bill of lading carrier liability shall be specifically limited to 50 cents per pound and provisions of Item 2 below shall be considered as not applicable.

Carrier shall not be liable for any loss or damage to a shipment or for any delay caused by an act of God, the public enemy, the authority of law, the inherent vice of the goods, or the act or default of Shipper. The burden to prove freedom from negligence is on the Carrier or the party in possession.

A. When the NMFC offers the consignor the option to declare an actual, declared or released value on the Bill of Lading, and such valuation is NOT declared by the consignor and the shipment is inadvertently accepted by carrier, the provisions referencing the lowest actual, declared or released valuation will apply and carrier's liability shall not exceed that valuation.

B. Corrected bills of lading or letters of authority to add or change the valuation will not be accepted.

E. There will be no carrier provided cargo liability coverage for shipments moving between the Mexico origin/destination(s), and the U.S. broker.

F. Movement of property as part of a continuous movement which has been or will be transported by an air carrier or a foreign air carrier is subject to a maximum liability of **\$.55** per pound per piece.

1. When shipments cannot be picked up or delivered with the vehicle used in transporting the shipment over the highway, and the carrier is required to render such pickup or delivery service with a different vehicle, such shipment will be subject to the following charge, in addition to all other applicable charges:
\$3.55 per each 100 pounds (or fraction thereof), subject to a minimum charge of **\$189.56** per shipment or per vehicle if more than one vehicle is used to pickup or deliver said shipment (See NOTE B)
2. Unless the Bill of Lading is specifically endorsed to show prepayment of the charges in Paragraph 1 they must be collected from the party requesting the service or guaranteed to the satisfaction of the carrier before the shipment is released.
3. Notation of the Bill of Lading that a shipment must be delivered on a vehicle different in size and/or nature of the vehicle used to transport the shipment over the highway will not relieve the liability for the charges noted in Paragraph 1 for such delivery service of applicable shipments.

NOTE A: Applicable on truckload, volume, capacity load, or exclusive use shipments. Applicable on all other shipments (which were not noted in preceding sentence) only when such shipments weight 10,000 pounds or more, or when such shipments would normally be picked up and delivered by the same vehicle which transports said shipments over the highway, in consideration of carrier's operating procedures.

NOTE B: When 90% of the shipment is on pallets (or other devices which permit mechanical unloading), and shipment will be picked up or delivered in same manner, the charge will be **181** cents per each 100 pounds (or fraction thereof), subject to a minimum charge of **\$130.31** per shipment or per vehicle if more than one vehicle is used to pickup or deliver said shipment.

ITEM 985 – VEHICLE FURNISHED, BUT NOT USED

(See NOTE A)

1. When upon receipt of a request to pick up a shipment, the carrier has dispatched a vehicle for such purpose, and through no fault of the carrier, the vehicle is not used, the following charges will be assessed against the consignor making such request:
 - (a) If consignor's premises are located within the carrier's terminal area, the charge will be **\$363.73** per day, per vehicle.
 - (b) If consignor's premises are located outside the carrier's terminal area, the charge will be **\$5.50** per mile (See NOTE B), subject to a minimum of **\$876.95** per day, per vehicle.
2. Accrual of the charges noted in Paragraph 1 will terminate when consignor advises carrier that vehicle will not be used.

NOTE A: Applicable on shipments which consignor has advised carrier to be a truckload, volume, exclusive use, or weighing 10,000 pounds or more.

NOTE B: The chargeable mileage will be the total mileage from the carrier's terminal to the consignor's premises and back to the carrier's terminal as determined by use of the PCMILER.

ITEM 992 – WEIGHT VERIFICATION

1. The Carrier or Carrier's agent shall have the right to take any action necessary to determine if the information on the bill of lading is correct while in the custody of the carrier or carrier's agent, including, but not limited to:
 - (a) Verification of gross shipment weights (a shipping carrier, container, package, pallet or platform constitutes part of the gross weight).
 - (b) Collection of other sufficient evidence necessary to verify if the weight of shipment is correctly declared on the Bill of Lading.
2. When information is found to be incorrect on the Bill of Lading, the freight bill will be corrected and freight charges assessed according to the proper weight. If the pallet contains mixed commodities, the corrected weight will be charged at the classification of the lowest commodity shipped.
3. When the reweigh of a shipment results in an increase to freight charges of at least **\$11.24**, a **\$24.77 reweigh fee** per shipment, or per vehicle if more than one vehicle is used to transport the shipment, will apply. This charge will be in addition to all other charges and will not be subject to discounts.
4. When carrier is requested to use a certified public scale to reweigh any shipment or vehicle, the fee assessed to the carrier will be advanced for payment to the party requesting the weight determination.

ITEM 993 – WEIGHING AND INSPECTION

1. If the description, weight, or other information contained on the bill of lading is incomplete or believed to be incorrect, the Carrier or Carrier's agent will take action necessary to determine the correct information. Actions to determine actual freight characteristics include:
 - A. Inspection of packages
 - B. Verification of gross shipment weights
 - C. Verification of actual or declared density
 - D. Collection of other sufficient evidence necessary to verify whether or not the shipment is correctly described.
2. When the information is found to be incorrect, the bill of lading and carrier freight bill will be corrected and freight charges assessed according to the proper descriptions and weights, except when mixed commodities are palletized by the Shipper, the increased weight will be charged at the highest rated commodity in the shipment. Deficit weight, if any, will be charged per NMF 100 series.
3. Density will be determined by the cube utilized as determined by the methods contained in Item 110, Section 8 of the National Motor Freight Classification (NMF 100) Series and the weight shown on the shipper's bill of lading, unless the carrier determined the weight on the bill of lading to be in error or the shipper provides documentation that the weight was in error.

ITEM 994 – WEIGHTS-GROSS WEIGHTS AND DUNNAGE

SECTION 1:

Unless otherwise provided, charges shall be computed on actual gross weights, except when estimated weights are authorized, such estimated weights shall be used.

SECTION 2:

Any temporary blocking, flooring or lining, racks, standards, strips, stakes or similar bracing, dunnage or supports not constituting a shipping carrier, container or package or a part of the vehicle, shall be excluded from the gross weight.

SECTION 3:

Any temporary blocking, flooring or lining, racks, standards, strips, stakes or similar bracing, dunnage or supports not constituting a shipping carrier container or package or a part of the vehicle when required to protect or make shipments subject to other than LTL or AQ classes or rates secure for transportation, must be furnished and installed by the shipper, except that upon request of shipper such materials will be furnished or installed by the carrier subject to the following provisions:

1. When materials are furnished by the carrier, the cost thereof will be paid by the shipper upon presentation of an invoice from a supplier independent of the carrier covering such materials used on the involved shipment.
2. The labor charge for installation of shipper or carrier furnished material will be at the rate of **\$64.03** per hour or fraction thereof, for each man.
